PROFESSIONAL SUMMARY

Final Year B.E Computer Science & Business Systems student with strong foundation in Java, Spring Boot, and AWS Cloud. Built scalable REST APIs and cloud-native applications. Experienced in Agile, Git and Microservices. Passionate about developing cloud-native fintech platforms. Seeking Trainee Full Stack Developer role.

EDUCATION

B.E in Computer Science and Business System, VTU. CGPA: 8.53 / 10 (85.30 %) Srinivas Institute of Technology, Mangalore.	Sep 2023 - Present
12th – Science, Karnataka Pre-University Education Board. Percentage: 76.16% Government Independent PU College, Baad.	2023
10th-SSLC, Karnataka Secondary Education Examination Board. Percentage: 81.28% CVSK High School, Kumta.	2021

SKILLS

- **Programming Languages:** Java, Python, C, C++, SQL.
- **Frameworks & Web:** Spring Boot, Django, Flask, REST APIs, HTML, CSS, JavaScript.
- **Databases:** MySQL, MongoDB.
- **Cloud & DevOps:** AWS, Git, GitHub, Docker, CI/CD.
- **Testing:** Manual Testing, Selenium Basics, JIRA, Postman (API Testing).
- **Core CS:** OOPs, Data Structures & Algorithms, Microservices, System Design.
- **AI/ML:** Machine Learning, Scikit-learn, Pandas, NumPy, TensorFlow, NLP, LLM.
- **Tools:** VS Code, IntelliJ.
- **Domain Knowledge:** Full Stack Development, Cloud Computing, REST API Design.

INTERNSHIP EXPERIENCE

Cloud Financial Management, Virtual Internship, Eduskills Academy	Jan 2026 – Mar 2026
• Gained hands-on experience in AWS cloud cost optimization and resource utilization. • Learned budgeting, forecasting, and building efficient cloud solutions for scalable applications.	

ACADEMIC PROJECTS

Smart Home Assistant For Accessible and Independent Living for Physically Disabled	Jul 2025 – Nov 2025
• Built a scalable smart home automation system from scratch to assist physically disabled individuals, improving accessibility. • Developed 4 REST APIs using Python/Flask and deployed on AWS cloud for real-time IoT control of appliances via mobile commands. • Integrated IoT sensors for real-time monitoring and designed a reusable, user-friendly interface for users with limited mobility. • Collaborated with 4-member team using Git and Agile methodology to deliver project within timeline.	
AI-Driven Biochar Soil Optimization for Sustainable Yield	Feb 2026 - Present
• Developing an AI/ML system to optimize biochar-enriched soil for sustainable crop yield and carbon sequestration. • Implemented data cleaning, feature engineering, and regression models using Pandas and Scikit-learn. • Focused on writing efficient, reliable code for processing large agricultural datasets. • Working in a team to maintain and iterate existing ML modules for better accuracy.	

CERTIFICATIONS

- IT Specialist -HTML 5 Application Development (Global certification), Ethnotech Academy, 2024.
- Data structures in C, Ethnotech,2024.

ACHIEVEMENTS

- Participated in the event Srinathon Hackthon,2025.

EXTRACURRICULAR ACTIVITIES

- Envision event Co-ordinator CSBS Dept, Srinivas Institute of Technology,2025.

Languages Known: English, Hindi, Kannada.

Interests: Drawing, Hackathons, Exploring AI-tools, Listening music.
